

Take it to the limit.

Put the quiet strength of an  
Ultra Estate Gate to work for you.

Add a stunning and practical operating estate gate to your property, and enjoy the upscale beauty and security that Ultra can provide. Your Ultra Estate Gate is designed to match the rest of your fencing, and blend with your architecture as well.

**We push everything to the edge.**

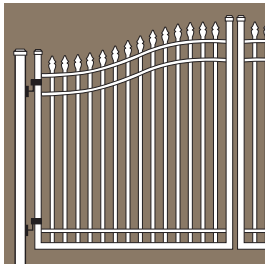

Ultra gates are made in the U.S.A., manufactured from start to finish in our facility using Ultrum™ Alloy, a high-strength 6005-T5 aluminum alloy. All the components of an Ultra Gate are individually designed and factory assembled, first with stainless-steel fasteners, and then 100% welded at all connections and joints. The entire assembly is protected with our Powercoat™ finish, a durable finish that is typically twice as thick as most other types of paints and enamels.

# A Wide Variety of Gate Options and Designs

Ultra manufactures Walk, Drive, Cantilever and Estate Gates to satisfy your security needs. Ultra Estate Gates are engineered from Industrial or Commercial grade components, ensuring long-lasting strength and durability. Your Estate Gate can be custom designed for added beauty with Ultra's Designer Accessories – scrolls, butterflies, circles and two types of finials. Enjoy security and beauty all in one with an Ultra Estate Gate.

**Ultra Custom Rolled Estate Gates** are built to easily span openings up to 28' wide, and will accommodate most access control systems.

## Our U-Frame Option Gives You Even More Strength

For situations where additional lateral strength is required, the Ultra Welded U-Frame can be specified. It beautifully integrates an additional structure that surrounds the sides and the bottom of each leaf with a welded frame.

## The Ultrahinge™ Option Gives You Long-Lasting, Smooth Operation

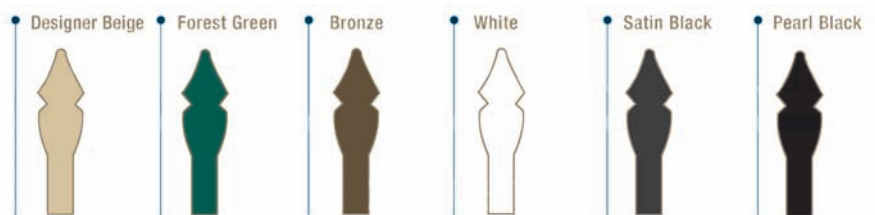

Our revolutionary design uses all aluminum extrusion, Mylar hinge blocks and J-bolts. This hinge may be welded or bolted on any type of gate frame and used for both post and column mount.

## Designer Accessories

Ultra Estate Gates are a functional and attractive addition wherever they are used, and our cast aluminum designer accessories make an even bolder architectural statement. There are scrolls, butterflies, circles and two styles of finials that can be integrated into your gate design.

## Architecturally Appealing Colors

Ultra Fencing, Railing, Gates and Designer Accessories are available in six classic colors as well as custom specified hues. All colors are applied with a special Powercoat™ finish to resist harsh weather and heat. Custom colors are available with a modest upcharge.

Colors shown represent an approximate comparison and may vary slightly from actual product color.

## Specifications

**Materials** – Ultrum Alloy, 6005-T5, 35,000 psi

**Commercial Uprights** – 2" x 2" x .125
