

Ultra Signature™ Collection Aluminum Hand Railing

Signature Railing with Tempered Glass Insert is a great way to provide safety without obscuring a beautiful view.

ULTRA Living fencing | railing

homes pools backyard enclosures

Signature Railing is ICC (International Commercial Code) compliant—strong enough to meet or exceed all building codes for railings. The Signature Railing system utilizes a two-piece design that withstands considerably more lateral force than code requires. The outer rail provides a secure hand grip, and completely covers all stainless-steel fasteners for a sleek, hidden-fastened look. All railing panels come in standard 6' widths when flange-mounted, and standard 8' widths when core-drilled. Shorter panels can be provided from the factory, or field trimmed to meet exact measurements on-site.

Ultra Lifetime Warranty

Ultra Aluminum fence and railing products are guaranteed for life against defects in workmanship and/or materials. The Powercoat™ finish on all fencing and railing by Ultra Aluminum is guaranteed for life against cracking, peeling or chipping. **Visit our website for more information and a copy of the warranty.**

Environmentally Responsible

Ultra is proud to use recycled aluminum in our products. Aluminum is the most commonly recycled metal in the world. Our powder coating process is environmentally friendly and virtually pollution-free.

MADE IN THE USA

Signature Railing™ has always been manufactured and assembled in the USA; one of a select few aluminum railing manufacturers who can make that claim.

You have a beautiful porch, deck, balcony, walkway or staircase. You want a strong yet attractive railing system to go with it. One that is sturdy and dependable; one that has passed building code for safety on multi-story buildings. One that offers several options for style and color. One railing system that has it all; a distinguished, distinctive, "signature" railing system. Signature Railing, from Ultra.

Signature's two-piece hand rail design provides exceptional strength where you need it most. The top rail provides a secure hand grip, and completely covers all the stainless-steel fasteners inside for a sleek,

unblemished look. Signature rails have an innovative fluted shape and design, for an heirloom-quality appearance. Signature's pickets are 3/4" square, and also available in a round 3/4" Monticello Baluster style.

Signature Railing is available in two configurations:

Post to Post, in which a special rail end is used to attach the panel to the post; or Continuous Top, which creates a sleek, continuous rail from end to end, for an uninterrupted grasp.

Signature offers four hand rail profiles and four style options; something to fit all types of architecture and landscaping.

UAR-2R Radiused Railing with Jefferson Top

Signature has more handrail designs than most of our competitors, with a profile and color to fit all types of architecture.

All components of your Signature™ Railing are color-matched.

All colors are applied with a special Powercoat™ finish to resist harsh weather and heat. Custom colors are available with a modest upcharge.

Powercoat is twice the thickness and hardness of a typical baked enamel finish. Meets AAMA 2604-5 standards for the ultimate in durability and UV protection.
