

## Designer Accessories

Ultra Fencing, Railing and Gates are a functional and attractive addition wherever they are used, and our cast aluminum designer accessories make an even bolder architectural statement. There are scrolls, butterflies, circles and two styles of finials that can be integrated into your fencing design.

## Colors

Ultra Fencing, Railing, Gates and Designer Accessories are available in six classic colors as well as custom specified hues. All colors are applied with a special Powercoat™ finish to resist harsh weather and heat.

Colors shown represent an approximate comparison and may vary slightly from actual product color.

## Ultra Aluminum Lifetime Warranty

Ultra Aluminum fence and railing products are guaranteed for life against defects in workmanship and/or materials. The Powercoat™ finish on all fencing and railing by Ultra Aluminum is unconditionally guaranteed for life against cracking, peeling or chipping. **Visit our website for more information and a copy of the warranty.**

## Environmentally Responsible

Ultra is proud to use recycled aluminum in our products. Aluminum is the most commonly recycled metal in the world. Our Powercoat™ coating process is environmentally friendly and virtually pollution-free.

## Superior Product Design for Ultra-Strength

How to tell you're getting genuine Ultra Fence or Rail.

It's in the details. The inner strength of the aluminum alloys we use. The quiet strength of the extra ribs inside Ultrarails™. The depth and dependability of our Powercoat™ finish. We push everything to the edge.

### High-strength Ultrum™ Alloy, Made in the USA

It's as strong as steel, but will never rust. Ultrum is a 6005-T5 alloy, with a minimum ultimate strength of 35,000 psi.

### Ultrarail™ – 20% more aluminum in all our rails, with a full 8 ribs inside

Maintains Ultra-Strength even when punched for pickets.

### Our pinched spear tops show more detail than most competitors

We put more dimension into our version; the more pronounced ribs add structural integrity as well as architectural appeal.

### Factory assembled, with stainless-steel fasteners

For structural integrity and strength you can count on.

### All gates are fastened and 100% welded at all connections and joints

Designed to stand up to the rigors of everyday use.

### Powercoat™ Finish—panels, gates, posts and designer accessories

When applied, Powercoat is twice the thickness and hardness of a typical acrylic, baked enamel, or "wet paint" finish, making it more durable, fade-resistant and scratch-resistant than other coatings.

## Over-the-top Architectural Details can really make a difference

### Multiple sizes and gauges of components for every performance level

Ultra Posts are available as 2-1/2", 3" and 4" square. Pickets are 1" square, and our reinforced Rails are 1-5/8"

### Finials, butterflies, scrolls and circles take your fencing to a new level

Combine these heavy-duty cast accessories for truly distinct designs

### Six colors are standard at Ultra; same price, same delivery time

Custom colors are even available with a modest up-charge

Hurricane Tested Tough! Ultra IS/ISP fencing tested to withstand hurricane wind gusts of up to 259 MPH.

An independent lab's accelerated weathering test shows that Ultra's Powercoat™ finish maintains higher levels of UV Protection compared to other leading manufacturers' finishes.

## Industrial Fencing

For applications where additional security and strength are required, Ultra has developed the Industrial Series fencing. All fence sections come factory pre-assembled in 6' lengths, with a broad offering of heights — 48", 60", 72" and 96". Custom lengths and heights are available by special order. Each section easily follows modest changes in grade along your property lines, or can be factory designed to conform to more prominent hills and valleys.

### IS Series

## ULTRA IS INDUSTRIAL SERIES

incorporates our largest-scale components for industrial-strength and safety.

## ULTRA ISP INDUSTRIAL SERIES PREMIUM

designed for maximum security in higher risk applications.

- Double-Wall ISP Rail
- Additional Strength
- Hidden Fasteners
- Impervious to Insects

CANTILEVER GATE

ARCHED WALK GATE

## Walk and Drive Gates

Matching walk and drive gates are available in standard widths and heights. Larger walk gates, drive, estate, and cantilever gates are also available.

Each pool gate is also available with self-closing and self-latching hardware and specially designed keyed entry.

**MATCHING WALK AND DRIVE GATES ARE AVAILABLE IN:**  
**WIDTHS OF: 36", 48", 60", 72", 96" AND**  
**HEIGHTS OF: 36", 42", 48", 54", 60", 72".**
